BEAM IN THINE OWN EYE

The conversation we have with art is a conversation with ourselves. And in this exhibition we let the mind's eye shine.
David Walsh

Warning If you have any history of photosensitive epilepsy, you are strongly advised not to enter ZEE. Due to the immersive nature of the installation, there is a danger of motion sickness, trance-like states and blackouts; and epileptic seizures may be experienced in varying degrees. In addition, people suffering from asthma or general breathing problems, migraine and headaches, eye and ear diseases, or claustrophobia, are advised not to enter. Pregnant women, children and those below the age of 18 may not attend Zee.
